I am happily submitting to various positions on the council so that I may use my education and experience to obtain further growth and sustainability for our Tribe. I have been currently serving on the Business Council and I see many areas that could use some improvement. I feel that I have the necessary tools and energy to move our Tribe in a more sustainable direction.

I have the confidence that I will use my knowledge and skills to improve policies, progress financial sustainability, and push the movement of existing projects. I would enjoy the opportunity to serve my tribal community and its entirety. I have had the time to analyze our current situation and have reflected on ways to make it better.

Thank you all for your valuable time and consideration of my proposal and ideas for our tribe. I hope that you would entrust a motivated individual such as me to help guide our tribe in innovation and healthy movement toward our future.

My qualifications are: I have been involved for 30+ years with our tribal business and I am very passionate about the future of our Tribe. Currently I have completed the Accounting portion of my studies and now I am working on the Business Administration and only have 3 classes until I obtain my Associate's in Science. I also have 20+ years office experience in tribal and non-tribal settings. I can relate to people and I fully understand cultural competency.

Respectfully submitted,

Sherrie Williams
